

### LETTER OF MOTIVATION BY MR. ABDULAI WADUDU

My name is Abdulai Wadudu, a **Level 400** student at the **University for Development Studies**, Tamale. I hail from Sakogu, a farming community in the East Mamprusi District of the North East Region of Ghana. I am currently pursuing a **six-year Doctor of Medical Laboratory Science program** in the University.

I am writing to you this letter in response to the annual scholarships that you offer to deserving, brilliant but needy students. I wish to apply for your JEQ Foundation Scholarships for College Students in Ghana to enable me continue with my education my financial background is very poor. My only guardians are my two parents both of which are peasant farmers with no payable jobs.

Growing up as a student, my dream has always been to become a medical professional as I value health more than any other asset in life.

Realizing that this want not an easy dream to achieve, I instilled the spirit of hard work, discipline and never giving up in myself. This enabled me work tirelessly to pass all school examinations that came my way. I have always followed school protocols and obeyed rules and regulations because for me, only knowledge without good character is not enough for a successful life.

My main academic goals are to complete my University Education with a first-class honor and to emerge as one of the best if not the overall best graduate.

After completing University and achieving my educational goals of becoming a medical professional, with your support, I wish to help Ghana tackle most of the health problems we face in this country. My aim is to improve the health status and as well improved the quality of health of the people.

Another important goal for me is to get myself well positioned in society so as to be able to provide financial support to brilliant but needy students like myself and others, in the near future. In fact, I will be sad to see a brilliant but needy student go through that I have gone through, in the future. I would be forever grateful and indebted to you if you consider me for the award of your annual JEQ Foundation Scholarships for College Students in Ghana. I humbly ask for your kind consideration and approval.

With your due support, I believe I will be able to achieve my educational goals in life which poverty might have denied me. If any other information related to my education is needed, I humbly say you should not hesitate to contact me via my details provided.

Thank you for attending to my letter.

Yours sincerely,

Abdulai Wadudu.
